

Pristine

the professional's choice for inspired ceiling creations

Pristine stretch ceilings are available in a smooth matt finish in a number of colours. When treated with Bio-pruf® the membrane becomes a hygienic ceiling with anti-bacterial properties.

Sheraton Hotel - Doha - Qatar

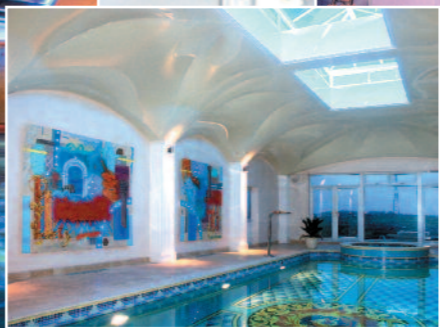

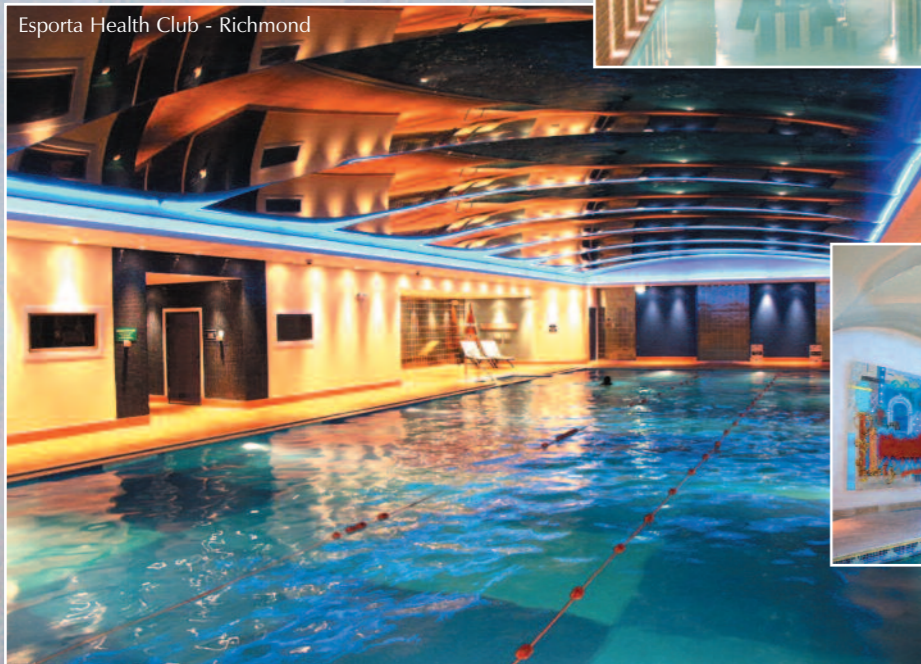

Daylight Ceilings have translucent membranes for special lighting effects enhancing visibility and visual impact.

Pristine stretch ceilings are an ideal vapour proof barrier for swimming pools and spas. The system is maintenance free, removing long term decorating costs.

Pristine stretch ceilings adaptability ensures a variety of uses, including sculptural shapes and forms, making it ideal for use in exhibitions and shows.

Pristine stretch ceilings are perfect for use in foyers and receptions creating that all important good first impression

The system is lightweight enough to be used as ceiling modules and sail elements for display areas in museums, galleries and shopping centres.

Pristine will travel anywhere in the UK, Europe and overseas to install stretch ceilings
